Spring 2017

*Going digital –
meeting online*

Thursday, 15 June 2017, 10 am

An event presented by PwC's Academy for CFOs and controllers

Dear Financial Reporting Professionals

In recent years many professionals have taken advantage of our Stay Smart events to get up to speed on the latest developments in IFRS relevant to the current financial reporting season. We are writing to invite you to our 2017 programme. As in the past we aim to give you the opportunity to find out about and discuss important changes in financial reporting.

This year's spring programme will take the form of a one hour webcast including a Q & A session, accompanied by a live chat throughout. We will have a focus on the upcoming interim reports and also look at the areas of focus recently published by the SIX exchange regulation. You will be updated on the latest developments and trends in pension accounting, including risk sharing, and we will share insights on the implementation of the new revenue and leasing standards.

Free of charge, this format is designed to fit into your schedule more flexibly. You will get information on the latest changes in compact form, and you will still have the opportunity to interact live with peers and PwC's specialists. The autumn programme will again take the form of half day events at various venues throughout Switzerland; programme and dates will be communicated in due course.

We cordially invite you to take part in the webcast.
Please see the programme for more details.

Best regards

David Mason
IFRS Leader, PwC Switzerland
